SUPREME INNER ALCHEMY

INNER ALCHEMY CHANGE

CHANGING LEAD INTO GOLD

Transform Negative into Positive

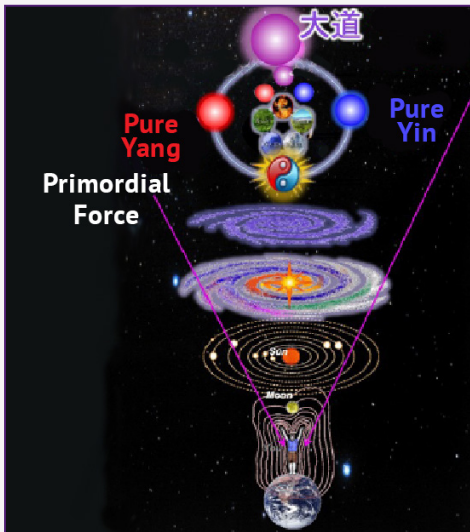

Alchemical changes happen every day in our lives. When a loved one is sad or depressed, we can talk to them and make them feel better. This transforms the negative into positive.

Western doctors now realize that a lot of sickness is caused by holding negative emotions. Anger increases the blood pressure and puts stress on the heart.

We can learn to transform our negative emotional energy into positive emotional energy by practicing the Inner Smile and the Six Healing Sounds; thusly helping to improve our health and spiritual energy.

Recycle emotional and sexual energy

When we feel sexual arousal and desire sexual hormones are activated. We can recycle these energies using the internal alchemy practices of the Microcosmic Orbit and Healing Love.
